In London, when the sun was low, And with Wilson dressed to go To that big banquet, donchernow, His feelings surged tumultuously.

But England saw another sight: Her furnace fires were burning bright, And still we're here, day and night,

Thanks to Free-trade Democrats.

And brighter yet will burn those fires, While labor here still cheaper hires,

And Democratic campaign lures.

At the Circuit Clerk's office there are several large volumes of depositions filed by the husband's attorneys, containing some of the most sensational and racy testimony ever put on record there. In these there is material enough for a dozen ten-cent novels, and the old bachelors, middle-aged bachelors and young bachelors—besides the married men—have been reading them with great interest, and their efforts to get to read them. A motion was made by the wife's attorneys to have this testimony squashed on some technicality, which was done. This will necessitate taking them all over again. All the questions will be taken to the Court of Appeals, except the last.

America!  
American Laws!  
American Goods!  
American Wages!  
American Citizens!  
American Institutions  
Are Good Enough for  
THE LEDGER!

It was a great idea of the Democratic Free-traders in Congress to put all currency stock on the free list and take from it the 25 per cent ad valorem Protection that was given to American nurserymen under the McKinley Tariff. But the Democrats aimed to destroy our truck farms, so why not another important branch of agriculture?

The Gorman Tariff Bill places all "plants, trees, shrubs and vines" on the free list. The Wilson Bill did the same. The Mills Bill would have done the same had it become law. It is a regular hard and fast plan of the Democratic party to injure the American nurserymen. Now that Canadian and European stock can come in here and be sold in our markets free of duty, there will be less American stock sold and it must also be sold cheaper in order to meet the foreign competition.

Why send American gold to buy of foreigners any product which our own farmers can sufficiently supply? Why import any foreign manufactures of which our own operations can supply all we need? Our laws properly exclude Chinese laborers and we talk of restricting other foreign labor immigration in order to save our own industries laboring people from the ruin of alien competition. But the importation of the products of such foreign labor in competition with our own is even more disastrous to our industries than would be the presence here of the competing laborers. The imported products take from American citizens the labor of production as fully as would imported foreign labor. With the laborers here they would make a market for some of our farm products and make a demand for homes in which to reside. When we import foreign wool we have that as perishable wealth, the foreigners have our gold in exchange, imperishable wealth. When we produce the wool here we have the wool and the gold both and a prosperous people besides. Our people should have American wages and the whole American market for their products.

THERE are 50,000 people employed in American nurseries, which occupy 175,000 acres of land. In all there are 4,500 nurseries, each covering nearly 40 acres of ground. The value of these nurseries is \$42,000,000, nearly \$10,000 for each nursery. The total invested capital is \$52,500,000, or \$13,000 per nursery. It was a great Democratic idea to try and destroy this important industry by putting all nursery stocks on the free list.

A COUPLE of weeks ago the American Economic drew attention to the efforts made by the Democratic Secretary of the Treasury, Mr. CARLISLE, to give every possible advantage to the foreign manufacturer by his rulings on the ambiguous verbiage in the Gorman Tariff Bill. These rulings were anxiously waited for in Europe. They cost the United States Treasury "a trifle of two millions sterling—no small sum to pay for a principle," so we are informed by an English temporary. But it is doubtful if we are paying this \$10,000,000 "for a principle." Is it not for the violation of a principle? Here is what the Glasgow Herald of August 29th said:

"It is now decided on the responsibility of Secretary CARLISLE that all goods in bond now to be free-listed can be admitted free as soon as the bill becomes law. This is but consistent with the other ruling to which we called attention at the time, that goods now in bond coming under reduced scales by the new Tariff shall pay these reduced rates and not the McKinley rates. It did not seem reasonable to make fish of one set of goods and flesh of another set. Yet the amended opinion of the Treasury will, it is said, cost a trifle of two millions sterling—no small sum to pay for a principle. This money will however, be thrown away, for the admission of such a body of cheap material is expected to have an immediately reviving influence upon certain industries."

How great is the contrast between this Democratic official's bestowal of favors to foreigners and his treatment of the Louisiana sugar planters. He could not distort the ambiguous verbiage of the Democratic Tariff Bill into any such ruling as will compel the United States Government to pay its honest obligations to American citizens. But he can do so to pay a trifle of two millions sterling" to foreigners. It comes high to pay for a Democratic "principle."

The summary of the registration has been completed in eight of the twelve wards of Louisville. The total registered vote in the eight wards is 22,457. The Democratic registration is 13,780, and the Republican 8,677, which is a great gain for the Republicans.

**Town People Have Nothing to Gain and  
Everything to Lose—When Municipal  
Officers Fail to Co-operate the Cor-  
porations Will Get No Profits.**

COLUMBIA, S. C., Oct. 10.—Gov. Tillman declared in an interview that Towns that "cooperated" to go to work and establish a place where they have reason to know that liquors are kept, and that private residences will not be exempt when they are made depots for the storage of whisky.

He says that the people have nothing to gain and everything to lose by their opposition to the enforcement of the dispensary law. In case mayors and the police fail to co-operate with the constables, the governor says, such municipalities as Columbia, Greenville, and Spartanburg will likely institute police systems in them under control of the state. Trial juries are threatened with decapitation unless they do their duty, and if juries fail to convict a change of venue will be tried.

The governor concluded by saying: "The law has come to stay, and the sooner that fact is recognized by the whisky men and those who have opposed it, the better it will be for all concerned."

No resistance will be tolerated, he says, for he has 2,000 men he can concentrate at any point in 48 hours to carry out the law.

G. M. Tolle was here Saturday.

William Ellis of Adams County, O., was a pleasant visitor here Sunday.

Will Boggs, the enterprising merchant of East Clarksville, was here Monday.

J. L. Walling, a prominent and well-sized auctioneer at Pleasant Hill, was here.

John Trumbo of Tollesboro is here with his mower cutting weeds for some of the enterprising farmers.

Samuel Nash of Lewis county shipped a lot of live stock from here to the Cincinnati market Monday.

H. C. Wilson, our intelligent young teacher, was visiting here West Union, O., Saturday and Sunday.

Mrs. O. H. Trumbo is better, and her granddaughter, Miss Maude Trumbo, who has been very low with typhoid fever, is thought to be out of danger.

The child of Mr. and Mrs. John, who had been sick with bronchitis, died Thursday. The body was taken to Bethel, Lewis county, for interment Saturday.

A letter from Dr. Doctor Greer of Gay, Ill., announces his intention of meeting with his old friends of the Seventeenth Ohio at their reunion at Aberdeen the 18th instant.

Not a little work is being done on the turnpike, notwithstanding its terribly dilapidated condition. What it will be after another winter campaign with frost and snow, and the largely increased amount of travel we leave the intelligent citizen to think about.

Our school is progressing nicely under the wise management of H. C. Wils., and the attendance is good notwithstanding the cold weather. A sufficient series of cards contracted by sitting these cool mornings without fire, the negligent Board of Trustees not having furnished any.

John Rash left his meat wagon standing in the pine while he went into the house for a few moments. A little son of Albert Edmundson, coming to explore the interior of the lame master, got his lid fell, making him a prisoner. His kicks and screams for rescue frightened the horses which ran away, considerably damaging the wagon, but not seriously injuring the boy.

*Fool's Gold.*  
The Citizens' Coal Company on Commerce street, Fifth Ward, have received a fresh supply of Pomeroy Coal, equal to the Peacock Coal, and will sell delivered, for cash, as cheap as any in the market. All orders promptly filled.

J. HAMILTON, Agent.

If you need spectacles or eye glasses, don't have them fitted in the old haphazard way by any one who may have them for sale. Consult us. We examine your eyes scientifically and make the glasses to fit. We can give you the names of hundreds from our prescription book who have been successfully fitted by our method who never had glasses to suit them before. We guarantee satisfaction in every case, and make no charge for examination. Ballenger, Jeweler.

The Central Public School Building at Owensboro was partially burned yesterday day morning. Books, furniture, a fine geological collection and valuable records were lost. The total loss is over \$5,000. The building was fully insured.

## Well, What Do You Care?

Portsmouth Tribune.

The MAYSVILLE PUBLIC Ledger says with regard to the shooting at the Ridgefield Camp-meeting Grounds oil was struck at the depth of sixty two feet, and then the hole was plugged up. If they had only set the volatile matter on fire what a lift that would have given the exhibitors in convincing the doubting sinners of the literal lake of burning material that has been such a shuddering tradition since the time the morning stars sang together.
